I'm Steve
Senior Designer / Developer

Hello, I'm Steve.

I've been working in the creative industry for over 19 years and I enjoy what I do, learning new things and exploring new options as both a designer and developer in this ever evolving industry.

Primary skills

– UX and UI design, sitemaps, wireframing and prototyping

– Visual design for web and print

– Hand coding of clean, semantic, valid html 5 markup

– Extensive knowledge of CSS 3, including Flex and CSS Grid

– Very comfortable working with GULP / Grunt task runners for compiling SASS / JS / Fonts / Images

– Working with version control and GitHub

– Basic understanding of JavaScript, jQuery, PHP and Symfony

– Working knowledge in development for Drupal and Wordpress sites

– Very comfortable with front end frameworks such as Bootstrap or Foundation

Other interests

– Proficient in video editing within After Effects

– 3D modelling and rendering with Blender and Lightwave 3D

Education & Training

– Art and Design	A*
– Graphic Design	A
– Design and Realisation	C
– Art and Design	A Level
– Graphic Design	Summer Course at Ravensbourne
